ARTIST BIOGRAPHY

Born and raised in Seattle, I have always pursued art. My training was at Cornish School in Seattle. I have lived in Anacortes since 1983.

In the mid-1980s I began a jewelry apprenticeship lasting for five years. I continue to pursue my jewelry work as well as having always worked as a 2D artist. Jewelry and painting became a full-time career in 2008.

I am the recipient of the 2019 Museum of Northwest Art Luminaries Award and currently have work on loan at the American Embassy in Pristina, Kosovo. I am a Board Trustee for the Museum of Northwest Art and REFA.

DISCIPLINE

I am a working visual artist, primarily in oil and oil pastel landscapes. I have also developed bodies of work in printmaking and art jewelry. I have won awards for my jewelry work and have been featured in museum shows and in print.

A part of my activity includes community service in the Arts

'Crow' brooch on wood with silver, paper, and drawing

'Love Me' sterling silver necklace with drawing and mica

'Our Town' sterling silver necklace with drawings and glass lenses
